WATER DISTRICT

Career Opportunity

Position: Engineering Technician

Salary Range: \$28.83 - \$37.17 hourly

Posted: September 11, 2017

Closing Date: Apply Immediately. This position is open until filled. First review of applications will occur **not later than September 25, 2017**

Are you interested in joining an agile team that innovates and delivers vital services on behalf of a supportive community? Scotts Valley Water District serves as a regional leader in sustainable water management and is the trusted source of high-quality water for our local community. If you seek and embrace change, believe in working and playing hard, and have the ability to offer ideas and see them through, we want to meet you.

Scotts Valley located amidst the redwood forests in the western Santa Cruz mountains is a small suburban community with a proud link to its past. A gateway to high tech and natural wonders, it is just 30 minutes from San Jose's Silicon Valley and six miles from beautiful Santa Cruz beaches. Scotts Valley offers a thriving community with small town values, excellent schools, low crime rates, a mild climate and lovely residential neighborhoods. The community places a high value on livability, innovation and planning for the future and the Scotts Valley Water District is proud to play a vital role in supporting those efforts by providing a reliable, high quality water supply.

This full-time (40 hours per week) position performs technical office engineering work in support of District or developer projects and programs; conduct engineering plan checking to ensure compliance with District requirements and specifications; prepare records, reports and analysis; and coordinate various water utility projects. Assignments are varied and may include operational, construction or design engineering tasks related to water supply, water quality, hydrogeology and infrastructure.

Experience/Education

Any combination of experience and education that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be two years of office and field engineering/construction experience or the completion of, either (1) six semester units or eight quarter units of coursework in engineering, construction, design or associated subjects at an accredited college or university.

License or Certification: Must possess and maintain a valid California Driver's License and a safe driving record.

Desirable Qualifications: Experience in public utility or governmental agency. California State Water Resources Control Board T2 Treatment Operator Certification or D2 Distribution Operator Certification.

Application and Selection Procedures:

A letter of interest, district application and resume is required. Obtain a District application at our [website](#). Submit materials by email employment@svwd.org.

All applications will be reviewed and a limited number of candidates presenting the most relevant qualifications for the position will be invited to continue in the selection process. The process consists of interviews with District staff and may include testing.

All offers of employment are contingent on proof of a good driving record and successful completion of a District paid physical. The District paid physical examination includes physical abilities testing as appropriate for the position and drug and alcohol testing as required for safety sensitive classifications.

Salary - Appointment is normally made at the first step of the salary range.

Appointment - Any candidate selected may be required to pass a pre-employment medical exam administered by a District-selected physician before hire. Candidates must present documentation verifying authorization to work in the United States. Appointments are subject to a six-month probationary period which is considered a part of the selection process. Probationary employees may be terminated without recourse during this period.

Agency Shop - This classification belongs to the Scotts Valley Water District Employees Union, AFSCME Local 101 AFL-CIO. Employees within this unit are under an agency shop provision, and as a condition of employment to pay monthly service fees or dues to the union for representation.

Retirement - All regular employees become members of PERS. Public Employees' Retirement System (PERS) 2% @ 62 (3 year average); this rate will apply only to regular employees who have an original hire date after 1/1/2013. Prior PERS membership may affect retirement formula. Social Security is not withheld.
