Agreements to Use Bulk Water Meter

Initial each requirement, indicating that you take full responsibility for the use of the bulk meter issued to you.

_____ Potable bulk water can only be used within the boundaries of the Scotts Valley Water District, whereas recycled bulk water can be used inside and outside the boundaries of the District.

_____ Recycled water is to be used solely for construction and landscaping purposes.

_____ Bulk water can only be drawn through the meter from the hydrant assigned to the site address on reverse of this form.

_____ It is unlawful and prohibited to operate the valve of any hydrant other than by use of a spanner wrench designed for that purpose.

_____ Water must be drawn from the meter during daylight hours only, except as approved by the District in advance, and at a flow rate no greater than 400 gallons per minute.

_____ When filling a tanker, an air gap must be present between the tank contents and the filler hose.

_____ This permit must be displayed in the truck or on site at all times while drawing water. Non-compliance will result in forfeiture of all deposits, loss of permit, and/or criminal prosecution, to the maximum extent allowable under law.

_____ Tampering with any hydrant or unauthorized water use shall constitute a misdemeanor, punishable by law.

_____ The customer shall use reasonable care to prevent damage to the meter and all facilities belonging to the District. The \$2,000 deposit may be refunded only after the meter has been returned to the District in good working order, or less the cost to repair the meter. The deposit may also be refunded less any outstanding balance for water consumption or past due payments on the account.

_____ Bulk water meter customers are required to call in the meter reads on the 28th day of each month.

_____ Payment in full must be made within 30 days of the billing at the following (or current) rate:
